DETAILED ACTION

1. This application has been examined. An informational disclosure document (IDS) filed January 3, 2003, has been considered. Claims 1-36 are pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilson (Figure 1). Note the plurality of weirs 33, 35, etc. disposed on respective walls of the tanks.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3753

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

6. The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

7. Claims 11-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wilson in view of Touzalin et al. Wilson discloses the claimed invention except for the recitation of a surface of a weir "...extends at an angle to the second wall..." as taught by Figure 2 of Touzalin et al (column 3, lines 43+). It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the weirs 33, 35, etc. of Wilson to be angled as taught by Touzalin in order to improve the desired fluid flow characteristics.

Art Unit: 3753

8. Claims 23-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wilson. It would have been obvious to one of ordinary skill in the art to operate and/or install the hydration tank 30 (i.e., deflect the fluid by the weirs through the tank) of Wilson by the rected method steps.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Patents to McIntire and Constien et al are of particular interest.

10. Any inquiry concerning this communication communications from the Examiner should be directed to A. Michael Chambers whose telephone number is (703) 308-1016 (FAX (703) 308-7765). The Examiner can normally be reached on Mon-Thur.
